Has anybody really looked at what the Bill 569 – titled the “Michigan strategic fund act.” is doing for locals who are in the movie making business? I agree it is giving work to trades people like electricians, and carpenters. But those of us who are actually in the movie business are not getting any of the benefits. I have a Foley ADR sound design stage, been in the business for 30 years, and have spent \$30k updating my studio expecting some fall out. Please reconsider a provision for Michigan content employment for those of us actually in the movie making industry.

Please look at this: www.KnR.net
